Open Science Office Hours Brain Imaging Educational Workshop: Post-training Survey

Thank you for participating in the **Brain Imaging Educational Workshop** at the **Open Science Office Hours (OSOH)** **of the Montreal Neurological Institute**, in collaboration with the **MIND Lab at The Neuro**.

This survey helps us improve workshops like this for more people to learn about brain imaging. Today you built a low-field MRI scanner that can be used for brain imaging.

Your participation in the survey is voluntary. No personal information will be collected. Any email address you provide is only used to check for duplicate entries and will be deleted immediately after.

Thank you for participating, and we hope you enjoyed the workshop!

A Bit About You

Which university or institution do you attend? *

- McGill University
- Concordia University
- Université de Montréal
- Université du Québec
- École de technologie supérieure (ÉTS)
- Polytechnique Montréal
- Other:

Are you a student, postdoc, faculty, or physician? *

- Undergraduate Student
- MSc Student
- PhD Student
- Postdoc Fellow or Associate
- Research Faculty / University Professor/ Group Leader
- Radiology Resident or Fellow
- Neurologist / Neurosurgeon / Neurooncologist
- MRI Technologist
- Industry Partner
- Other:

What is your program or department? *

- Neuroscience
- Biological and Biomedical Engineering
- Physics/ Medical Physics
- Electronic /Electrical Engineering
- Mechanical Engineering
- Computer Science/ Software Engineering
- Psychology
- Neurology/Neurosurgery
- Radiology
- Other:

Do you have any experience or background in one of these MRI disciplines *

- MRI Physics - Image Analysis
- MRI Physics - Pulse programming
- MRI Engineering
- MRI Clinical Application / Practice
- Other MRI Disciplines
- No experience or background knowledge

Your Experience with MRI Engineering and Construction of an MRI Scanner.

What field strength do you have experience or work regularly on? *[Select all that apply]* *

- Less than 0.5T
- 0.5 - 1.0T
- 1.5T
- 3T
- 7T and higher

Have you ever taken part in assembling or constructing an MRI scanner? *

- Yes - low-field MRI
- Yes - high field MRI
- No - never constructed an MRI scanner before
- Unsure

What parts of the MRI Scanner did you work on during Today's Open Science Office Hours LF MRI Workshop? *

- Magnet Assembly
- Field Map Robot Assembly
- None

Did your knowledge of Low-field MRI improve, remain the same or got worse after the workshop? *

- Improved
- Did not Change
- Got Worse
- Unsure

How would now rate your knowledge of the following MRI Engineering concepts? *

	Strongly Agree	Agree	Neither Agree nor Disagree	Disagree	Strongly Disagree
Type of MRI Magnets	☐	☐	☐	☐	☐
Understand Halbach Arrays	☐	☐	☐	☐	☐
Design and assembly a LF MRI scanner	☐	☐	☐	☐	☐
Scanner homogeneity	☐	☐	☐	☐	☐
MRI Field Mapping	☐	☐	☐	☐	☐

If this workshop would run again in Montreal would you participate and invite your friends and colleagues to participate? *

Yes

No

Unsure

What did we do well? (optional)

____

What Could we do better? (optional)

____

On behalf of [Open Science Office Hours (OSOH)] and the [Montreal Neurological Institute], we thank you for participating in the Brain Imaging Education Workshop and the low-field MRI hands on tutorial.
