

Open Science
Office Hours

March 13, 2026

11:30 am- 3:00pm

de Grandpré Communications Centre
Montreal Neurological Institute

Open Hardware

Hands on Low Field MRI scanner build with OSOH.

In this interactive Open Science Office Hours Workshop, participants will assemble a low-field brain MRI scanner, build its field-mapping robot and use it to measure the scanner's homogeneity. Participants will learn how the components work together in a low field MRI scanner to produce brain images.

Welcome and Introductions	10 min
Pre-training Evaluation	5 min
Low-field MRI Seminar	30 min
Scanner and Robot Assembly Guide	15 min
MRI Scanner and Robot assembly	60 min
Scanner Field Mapping & Training Evaluation	30 min
Lunch & Networking	60 min
